

# Ilham Nait Mbarek

## **Full-Stack Web Developer | PHP Developer/Analyst**

Montréal, Canada | +1 (514) 659-0555 | [ilham.naitmbarek@gmail.com](mailto:ilham.naitmbarek@gmail.com) |

LinkedIn : [linkedin.com/in/ilham-a-mbarek](https://www.linkedin.com/in/ilham-a-mbarek)

### **Professional Summary :**

Full-stack web developer with 5+ years of experience in designing, developing, and maintaining high-performance, scalable web applications using Object-Oriented PHP (7+), JavaScript, HTML/CSS, and SQL (MySQL, MS SQL Server). End-to-end software development lifecycle experience: technical analysis, design, development, unit testing, deployment, and support. Comfortable in Agile/Scrum environments with strong problem-solving skills and the ability to turn complex requirements into reliable, maintainable solutions. Proficient in REST APIs, responsive design, and performance optimization.

### **Professional Experience :**

#### **Full-Stack Developer – ENGIE (Capgemini France & Morocco)**

Feb 2024 – Jul 2025 / Sept 2021 – Jan 2024

- Technical leadership and enhancement of complex business applications.
- Developed application layers (presentation, business logic, data access) in OO PHP 7+, JavaScript, MySQL.
- Designed and executed unit tests with PHPUnit; supported acceptance testing.
- Integrated and documented REST and SOAP APIs.
- Agile team collaboration (Scrum): sprint planning, code reviews, continuous improvement.
- Technical analysis and resolution of critical production bugs.

#### **Full-Stack Developer – PSA (Capgemini Maroc)**

Aug 2020 – Aug 2021

- Developed and optimized features in Object-Oriented PHP and SQL.
- Automated workflows with Symfony.
- Contributed to Agile delivery cycles: technical design, iterative development, production releases.
- Mentored and onboarded junior developers.

#### **Web Developer – D.U.C.K-ess**

Dec. 2019 – Mar 2020

- Designed and developed showcase websites and a member management system using PHP 7, JavaScript, MySQL.
- Implemented responsive design for cross-browser and mobile compatibility.

## **Web Developer (Stages) – MIT Agency & RADEEMA**

2018 – 2019

- Developed web applications and internal tools for process automation.
- Managed relational databases and generated reports.
- MIT Agency: built a custom CMS on WordPress; coordinated with designers to ensure UI/UX consistency.
- RADEEMA: developed an internal application for managing phone allowances and personnel using Java EE, JSF, JPA, iReport Jasper, PrimeFaces, Oracle.

## **Education :**

- **Master's Degree in Computer Systems Engineering** – ISGA Marrakech, Morocco (2019)  
*WES Assessment: Canadian Master's equivalent*
- **Scientific Baccalaureate** – Marrakech, Morocco (2014)

## **Technical Skills :**

- **Languages:** OO PHP 7+, JavaScript, HTML5, CSS3, SQL (MySQL, MS SQL Server), Java
- **Frameworks:** Laravel, Symfony, CakePHP, Vue.js
- **CMS:** WordPress
- **Testing & Quality:** PHPUnit, Unit Testing, Acceptance Testing Support
- **Front-end:** jQuery, Bootstrap, XML, JSON, Responsive Design
- **Systems:** Linux (basic commands)
- **Tools:** Git/GitLab, Docker, Jira, UML
- **Methods:** Agile (Scrum), Technical and Functional Analysis
- **Other:** REST APIs, SOAP, Performance Optimization

## **Languages :**

- **French:** Fluent
- **English:** Professional
- **Arabic:** Native
